

GARCIA HAMILTON & ASSOCIATES, L.P.

FIXED INCOME – SHORT DURATION GOVERNMENT/CREDIT

FIRM BACKGROUND

Founded in 1988, Garcia Hamilton & Associates (GH&A) offers high quality fixed income strategies for institutional investors. Its diversified client base includes public funds, jointly trusteeed plans, endowments and corporations. GH&A is a limited partnership and presently manages approximately \$10.1 billion in assets. The firm is 100% employee-owned by nine internal partners, with approximately 91% held by minority and women partners and is certified as a MBE firm.

| Public | 64% | \$6,386 |
| Jointly Trusteed | 4% | \$410 |
| Endowment/Foundation | 6% | \$576 |
| Corporate | 15% | \$1,529 |
| Mutual Fund | 8% | \$839 |
| Other | 3% | \$331 |

FIXED INCOME PORTFOLIO PHILOSOPHY

GH&A's fixed income philosophy is based on three core principles; preserving principal, maintaining liquidity and providing high current income. This philosophy is integral to the Fixed Income-Short Duration Government/Credit product which is a U.S. broad market strategy that is benchmarked to the Bloomberg Barclays 1-3 Year Govt./Credit Index.

Based on our interest rate outlook, GH&A determines the portfolio's average duration within a 1.50 – 2.00 year range. GH&A primarily adds value through sector rotation and limited interest rate anticipation. We buy U.S. government, agency, corporate and agency mortgage-backed securities. Furthermore, we only purchase corporate bonds rated a minimum of single "A" or better by at least one of the major rating agencies at purchase. The high quality bias of the issues utilized reduces credit risk while ensuring ample liquidity. In addition, GH&A does not invest in non-dollar bonds, Yankees, high yield securities, zero coupon bonds or derivatives in its strategies. Likewise, the strategy does not utilize any leverage.

FIXED INCOME – SHORT DURATION GOVERNMENT/CREDIT REPRESENTATIVE PORTFOLIO CHARACTERISTICS

As of December 31, 2017

Bloomberg Barclays 1-3 Year Govt./Credit

Portfolio

| | Average YTM | Average Coupon | Average Duration |
|-----------------------------------|-------------|----------------|------------------|
| Portfolio | 1.5 | 2.4 | 0.7 |
| Bloomberg Barclays 1-3 Year Govt. | 2.0 | 2.1 | 1.9 |

*Inception (10/1/13) through 12/31/13. NM = Not statistically meaningful due to an insufficient number of portfolios in the composite for the entire year.

The GH&A Fixed Income-Short Duration Government/Credit Composite is comprised only of fully discretionary, fee paying institutional portfolios, including those portfolios no longer with the firm. The Fixed Income- Short Duration Government/Credit investment product will generally invest in high quality securities such as U.S. Treasuries, Agency debentures, 15-year Agency Guaranteed Mortgage-Backed securities and Corporate Bonds rated a minimum of single "A". The portfolios will generally operate within a duration range of 1.75 to 2.25 years. The portfolios do not contain derivatives and do not employ leverage.

The composite benchmark is the Bloomberg Barclays Capital 1-3 Year Government/Credit Index. The benchmark is used for comparative purposes only and generally reflects the risk or investment style of the product. The minimum portfolio size for inclusion in the composite is \$2.0 million. The composite creation date is January 1, 2014.

Garcia Hamilton & Associates, L.P. (GH&A) claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. GH&A has been independently verified for the periods January 1, 1993 through December 31, 2015 by Ashland Partners & Company LLP and from January 1, 2016 through December 31, 2016 by ACA Performance Services, LLC. The verification reports are available upon request. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. Verification does not ensure the accuracy of any specific composite presentation.

GH&A is defined as an independent investment management firm registered under the Investment Advisers Act of 1940 and prior to June 30, 2010, was known as Davis Hamilton Jackson & Associates, L.P. GH&A has chosen not to claim compliance prior to January 1, 1993. A complete list and description of firm composites is available upon request. Past performance is no guarantee of future results.

The U.S. dollar is the currency used to express performance. Returns presented above are gross and net of management fees and include the reinvestment of all income. The net of fees performance results are calculated based on actual fees. The management fee schedule for this composite is as follows: .30% of the first \$10 million and .25% of the balance. Actual investment advisory fees incurred by clients may vary.

The following disclosures are applicable to gross performance returns presented in one-on-one presentations. Gross performance results are presented before management fees. The deduction of such fees or other expenses will reduce a client's return. The net effect of the deduction of fees on annualized performance, including the compounded effect over time, is determined by the relative size of the fee and the account's investment performance. For example, a \$10,000,000 account with an assumed annualized rate of return of 10% over a 10-year period would grow to \$26,850,638.38 before fees and to \$24,908,751.21 after standard fees of 0.75% paid quarterly, in advance.

Additional information regarding policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request. Composite dispersion is calculated using an asset value-weighted standard deviation of annual gross returns of those portfolios included in the composite the entire year. The 3 year annualized standard deviation will be shown beginning December 31, 2016 when 36 months of composite performance is available.
