**FIXED INCOME PHILOSOPHY**

GH&A's fixed income philosophy is based on three core principles: preserving principal, maintaining liquidity, and providing high current income. This philosophy is integral to the Fixed Income - Aggregate product, which is a U.S. broad market strategy that is benchmarked to the Bloomberg US Aggregate Index. The objective for this product is to outperform the benchmark net of fees utilizing a higher credit quality profile than the Index. The primary strategy to achieve this objective is through controlled interest rate anticipation, active sector rotation, and yield curve management.

GH&A employs a top-down approach in its fixed income portfolio construction. A broad fundamental analysis of duration, yield curve, and sectors results in a defined set of parameters for the individual issues that fit the portfolio. As part of our high-quality strategy, the securities we typically purchase are U.S. Treasuries, agencies, agency-guaranteed MBS, and corporate bonds rated A- or better by two rating agencies. We do not take any credit risk beyond ten years in order to contain volatility. The company does not utilize soft dollars, foreign companies/Yankees, high-yield securities, zero coupon bonds or derivatives in its strategies.

**COMMUNITY SERVICE**

The Firm encourages community service and philanthropy. Many of our team members volunteer in the community, and the Firm has donated over \$3.6 million since 2014.
