**FIXED INCOME PHILOSOPHY**

GH&A's fixed income philosophy is based on three core principles; preserving principal, maintaining liquidity, and providing high current income. This philosophy is integral to the Fixed Income - TIPS product, which is a U.S. inflation strategy that is benchmarked to the Bloomberg US Treasury Inflation Notes Index. The objective for this product is to outperform the benchmark net of fees utilizing secondary selection, controlled interest rate anticipation, and yield curve management.

GH&A employs a top-down approach in its fixed income portfolio construction. A broad fundamental analysis of duration, yield curve, and sectors results in a defined set of parameters for the individual issues that fit the portfolio. As part of our high-quality strategy, the securities we purchase are U.S. Treasury Inflation Protected Securities (TIPS), and we opportunistically purchase U.S. agencies, Corporate Inflation Protected Securities (SIPS) rated A- or better by at least two rating agencies, and nominal U.S. Treasuries. We do not take any credit risk in the corporate sector beyond ten years in order to contain volatility. The company does not utilize soft dollars, foreign companies/Yankees, high-yield securities, zero coupon bonds or derivatives in its strategies.

**COMMUNITY SERVICE**

The Firm encourages community service and philanthropy. Many of our team members volunteer in the community, and the Firm has donated over \$4.3 million since 2014.
